

Zeroing in on Better Bulletins for Business, Image and the Environment

Dear Pastor, Business Administrator, and Bulletin Editor:

The CPI is excited to offer you a first in the bulletin business! We have been working with Olympus (a multi-national organization, famous for their Cameras) on the development of a new High-speed Inkjet Full Color Digital Printer! Our relationship with Olympus has allowed us to be the first company in the U.S. to utilize the OP-1 Printer. This new printing technology provides our clients with great full color bulletins with practically Zero impact to the environment! You now have access to the Most Environmentally Conscious Bulletin available today!

We are reminded about the need to “Recycle”, “Reduce”, and “Reuse” – this basic conservation premise is definitely a must with our present economy! Weekly bulletins consume paper and other resources and it is our responsibility to be good stewards. The OP-1 Printer allows you to **UPGRADE YOUR BULLETIN EXPERIENCE** by printing your message in **COLOR**, while you make a difference in our world by reducing the impact of print to the environment!

Production times are limited; contact Bonnie McSwain 206-767-0660 x224

Thank you and God bless,

Thomas J. Perri
Catholic Printery Inc.,
Vice President
